CSE-4155 Introduction to Machine Learning Lab
4th Year 1st Semester, 2025 (Held in Feb, 2026)
Department of Computer Science and Engineering, University of Dhaka
Course Instructor: Dr. Muhammad Ibrahim, Associate Professor
Lab Instructors: Dr. Mosarrat Jahan, Dr. Muhammad Ibrahim, Mr. Aminul Kader

Lab 4 (08-04-2026)

In this lab:

1) Each group will brief us its progress on the lab project that they have made throughout the last week.
    a) The expected progress is:
        i) Collecting some data
        ii) Applying some augmentation techniques,
        iii) Finding out challenges in collecting data
        iv) A concrete plan as to how and when to complete data collection.

    In exceptional circumstances, if a group has not been able to start collecting data, it will need to explain to us legitimate reasons.
2) Writing the draft of the first few sections of the project report in a research paper-like format that contains:
    a) Title and Abstract
    b) Introduction
    c) Literature review
    d) Motivation and Objectives
    e) Methodology
        i) Data Collection and Preparation
        ii) Machine Learning Algorithms
